# Important to Purchasers

## TERMS OF SALE

For the past forty years, we have specialized in the growing of Pelargoniums and Geraniums. We have customers from coast to coast and their repeat orders are our best recommendation.

All sales and quotations are on a strictly cash basis regardless of the responsibility of the customer. Our prices are low; we guarantee full count and render the best possible service in every way.

C.O.D. orders must be accompanied by one-half of the amount of the order. We prefer to ship all orders by express, as our experience has proved best. We ship by Parcel Post only on request.

All offers are made subject to goods being unsold.

No charge for packing on orders amounting to more than \$2.00. Add 10 per cent on retail orders \$2.00 or less.

We take all possible means to keep every variety separate and true to name, but cannot be held responsible for the success of crop.

All claims must be made immediately on receipt of goods. Later claims will not be considered. When loss occurs through our fault we will take pleasure in correcting same, but will not be responsible for damage in transit, claims for which should be made at once to the Express Company.

We have stock on hand at all times, but prefer large orders booked in advance. On orders of 10,000 or more, ask for special quotations.

## DESCRIPTIONS

We have given our own description of each variety. It should be clearly understood that cultural conditions (soil, climate, and weather conditions) influence many Pelargoniums, especially the Domesticum group, to such a degree that there will be found considerable variation in the size, shape and coloring of the flowers.

New varieties in limited numbers only.
